# INDEX OF ABSTRACTS OF TUBERCULOSIS

Abortive tuberculosis of hip, 67
Abscess, Lung, 28
—— ——, in child, nontuberculous, Artificial pneumothorax for, 84
—— of lung, Amoebic, 76
——, Pulmonary, following tonsillectomy, 75
Abscesses, pulmonary, Nontuberculous, 28
Absence of free fatty acids in tubercle bacilli, 54
Accidents of chest puncture, 14
Acid-fast bacilli, Defatting of, in vivo, 53
Acids, fatty, free, Absence of, in tubercle bacilli, 54
Actinomycosis of lungs simulating tuberculosis, 78
——, Treatment of, with Friedmann's vaccine, 79
—— with recovery, 78
Action of human lung on fat, 45
—— —— krysolgan, Theory of, 23
—— —— salts of rare earths on growth of tubercle bacillus, 52
Activation of bone tuberculosis by salvarsan, 69
Active substance in tuberculin, 118
—— tuberculosis, diagnosis of, Specific serological, 63
Activity of lung tissue in converting fats to lipoids, Relative, 46
—— —— pulmonary tuberculosis, Criteria of, 56
Addison's disease, Histology of, 2
—— ——, Pigment production in, 72
Adenitis, Nontuberculous, of children, 37
Adenopathy, Tracheobronchial, of older children, 39
——, tuberculous, in children, Diagnosis of, 38
Adhesions, costodiaphragmatic, Influence of, on respiratory function, 113
——, pleural, Separation of, by galvanocautery, 11
Adhesions, Separation of, by high frequency currents, 11
Adrenals, Tuberculosis of, 71
——, tuberculosis of, Fibrocaseous, 71
Adults, joint tuberculosis of, treatment of, Helio-marine, 6
Advances in thoracic surgery, 84
Aerobic, Tubercle bacillus only relatively, 53
Affected side, Relation of, to clinical course of pulmonary tuberculosis, 58
Against droplet infection, 104
Agassiz, C. D. S., and Gloyne, S. R. Examination of blood of children for tubercle bacilli, 41
Age and obesity, Vital capacity as influenced by, 45
Air embolism or pleural shock, 15
Albinger, E. Vernal peak of tuberculous meningitis in childhood, 74
Alcoholics, tuberculous old, Pseudo-Addisonian syndrome in, 3
Alcohol-treated tubercle bacilli, Immunization with, 25
Alexander B. Treatment of tuberculosis with camphor, 22
Alkali reserve in pulmonary tuberculosis, 45
Altschuller, G. Bood changes during artificial pneumothorax, 84
Ambard's constant, Inadequacy of, as evidence of kidney involvement in tuberculosis, 71
Ambulatory treatment of tuberculosis, 81
Ameuille and Aris. Artificial pneumothorax after serofibrinous pleurisy, 83
Amoebic abscess of lung, 76
Anaphylactic, Tuberculin reaction not, 50
Anaphylaxis in tuberculosis, 50
Anderson, E. D. Hilum lymph node enlargement in tuberculous children, 109
Andreasch, A. Wildbolz auto-urine reaction in children, 41

Andrus, W. D. W. Lung volume and blood flow following pneumonectomy, 43
Anemic tuberculous patients, Occult blood in feces of, 26
Anergy, Tuberculosis, caused by syphilis, 26
deAngelis, F. Physical development in children with hereditary syphilis and tuberculosis, 110
Animals, Breathing experiments with, 111
Annular shadows in pulmonary tuberculosis, 43
Antibodies in tuberculous sputum, 51
Antigenic properties of lipoids from tubercle bacilli, 53
Antituberculosis work of Rockefeller Commission in France, 32
Aoyama, K. Relation of affected side to clinical course of pulmonary tuberculosis, 58
Apel. Portable artificial pneumothorax apparatus, 84
Apical catarrh, pulmonary, Tuberculous and nontuberculous, 59
—— infection, 107
—— pleurisy in tuberculous infants, 40
Apparatus, artificial pneumothorax, Portable, 84
Appraisal of artificial pneumothorax treatment, 81, 82
Aris and Ameuille. Artificial pneumothorax after serofibrinous pleurisy, 83
Armand-Delille, Isaac-Georges and Ducrohet. Chronic tuberculous splenopneumonia in children, 40
Armstrong, D. B. Lessons from Framingham tuberculosis experiment, 31
Aronson, J. D., and Lewis, P. A. Complement fixation in leprosy, 80
Articular rheumatism, chronic, Iodine treatment in, 80
Artificial pneumopericardium, 26
Artificial pneumothorax, 17
—— —— after serofibrinous pleurisy, 83
—— —— apparatus, Portable, 84
—— ——, Blood changes during, 84
—— ——, Cause of healing in, 83
—— ——, Composition of gases in, 82
—— —— during insulin treatment, 83
—— —— for nontuberculous lung abscess in child, 84
Artificial pneumothorax in nontuberculous lung conditions, 19
—— ——, Late results of, 82
—— ——, Manometer in, 15
—— ——, Phrenicotomy as adjunct to, 19
—— ——, Spontaneous pneumothorax complicating, 84
—— —— treatment, Appraisal of, 81, 82
—— —— ——, Immunological principles governing, 18
—— —— —— of hemoptyses, 18
Asal and Falkenheim. Hemoclinic state in prognosis of tuberculosis in children, 42
Aspiration in serofibrinous pleurisy, 87
Atypical bovine tuberculosis of skin, 73
—— forms of tubercle bacilli, Interpretation of, 52
Austrian, C. R., and Baetjer, F. H. Lung findings in normal children, 36
Auto-activation of growth of tubercle bacilli, 52
Auto-urine reaction, Wildbolz, 62
—— ——, ——, in children, 41
Avian tubercle bacilli, Human tuberculosis due to, 104
Avicenna, Red rose-honey compound of, 22

Bacilli, acid-fast, Defatting of, in vivo, 53
——, defatted, Fornet's, in treatment of surgical tuberculosis, 94
——, ——, treatment of tuberculosis, 93
—— in sputum, Classification of pulmonary tuberculosis according to, 100
Bacilli, tubercle, Absence of free fatty acids in, 54
——, ——, alcohol-treated, Immunization with, 25
——, ——, Antigenic properties of lipoids from, 53
——, ——, atypical forms of, Interpretation of, 52
——, ——, avian, Human tuberculosis due to, 104
——, ——, dead, Hypersensitivensss produced by, 50
——, ——, ——, Tuberculin hypersensitiveness from, 118

Bacilli, tubercle, Examination of blood of children for, 41
——, ——, —— —— —— —— tuberculous Senegalese for, 49
——, ——, exposed to sunlight, Immunization with, 25
——, ——, Granular forms of, and clinical prognosis, 99
——, ——, growth of, Auto-activation of, 52
——, ——, in feces, 51, 52
Bacillus, tubercle, Filterable forms of, 52
——, ——, growth of, Action of salts of rare earths on, 52
——, ——, only relatively aerobic, 53
Bacteria in lungs after inhalation, 47
Bacteriostasis by dye mixtures, 48
——, Mechanism of, 48
Baetjer, F. H., and Austrian, C. R. Lung findings in normal children, 36
Baldwin, J. F. Hysterectomy in pregnancy with tuberculosis, 73
Barchetti, K. Frequency of tuberculous infection in childhood, 37
Barlow, N. Immunological principles governing artificial pneumothorax treatment, 18
Barre, Reboul and Pélin. Spontaneous pneumothorax in infant, 38
Barth, G. Prognosis of spontaneous tuberculous pneumothorax, 30
Bartlett, F., and Wollstein, M. Clinical types of tuberculosis in infancy, 107
Basal metabolism, Prognostic value of, 45
Baumann, M. Operative treatment of tuberculous spondylitis, 12
Baumgarten, P. Wandering cells and tubercle formation, 112
Baumgarten, W. Oral and conjunctival routes in tuberculous infection, 35
——, ——, and Koch, J. Oral and conjunctival routes in tuberculous infection, 35
Behavior of tuberculin in body, 51
Beitzke, H. Etiology of tuberculous infection, 34
Bernard and Vitry. Tracheobronchial adenopathy of older children, 39
Bernard, L., and Debré, R. Tuberculous infection of infants and its prophylaxis, 107
Bertoye, Mouriquand and Michel. Influence of tuberculosis on experimental scurvy, 26
Besnoit and Robin. Atypical tuberculosis of skin, 73
Besser, H. Actinomycosis of lungs simulating tuberculosis, 78
Biese, W. Wildbolz auto-urine reaction, 62
Bigland, A. D., and Sergeant, F. C. H. Actinomycosis with recovery, 78
Binet, L., and Roger, H. Fat metabolism in lung, 45
Binney, H. Gangrene of lung, 76
Bitonal cough in bronchial node tuberculosis of infancy, 39
Bittorf, A. Pigment production in Addison's disease, 72
Bladder, urinary, Successful surgical treatment of ileocecal tuberculosis with perforation into, 67
Blankenhorn, M. A. Milky effusions, 46
Blood changes during artificial pneumothorax, 84
—— flow, Lung volume and, following pneumonectomy, 43
——, foreign, Treatment of tuberculosis by injection of, 98
——, Occult, in feces of anemic tuberculous patients, 26
—— of children, Examination of, for tubercle bacilli, 41
—— —— tuberculous Senegalese, Examination of, for tubercle bacilli, 49
—— plasma from tuberculous patients, Toxicity of, 49
Blümel, K. H. Ambulatory treatment of tuberculosis, 81
Blumgart, H. L. Lead absorption by upper respiratory passages, 116
Boas, E. P. Cardiovascular complications of kyphoscoliosis, 80
Body, Behavior of tuberculin in, 51
Boez, L., de Coulin, A., and Borrel, A. Auto-activation of growth of tubercle bacilli, 52
Bonacorsi, Lina. New serum reaction for diagnosis of tuberculosis, 63
Bone disease, chronic, Caseosan in, 96
—— tuberculosis, Activation of, by salvarsan, 69

Bones, tuberculous, Skin temperature over, 69
Boquet, A., and Nègre, L. Antigenic properties of lipoids from tubercle bacilli, 53
——, ——., —— ——, ——. Hypersensitiveness produced by dead tubercle bacilli, 50
Borrel, A., Boez, L., and de Coulon, A. Auto-activation of growth of tubercle bacilli, 52
Boswell, H. Medical control of tuberculosis, 102
Bouveyrou, A. Treatment of lupus with modified tuberculins, 94
Bovine tuberculosis of skin, Atypical, 73
Bowen, B. D. Vital capacity as influenced by age and obesity, 45
Brace for severe scoliosis, 88
Bratusch-Marrain, A. Infectiousness of tuberculosis of infants, 109
Brau-Gillett, Harmelin and Thiroloix. Iodine treatment in chronic articular rheumatism, 80
Bray, H. A., and Duerschner, A. H. Supraclavicular depressions in diagnosis of tuberculosis, 57
Breast, tuberculosis of, Treatment of, 13
Breath sounds, Mechanism of, 112
—— ——, sterterous, Origin of, 57
Breathing experiments with animals, 111
Breger, Chaboure and Pissavy. Amoebic abscess of lung, 76
Broca, A. Tuberculous osteoarthritis in infancy, 40
Bronchi, Foreign bodies in, simulating tuberculosis, 26
Bronchial node tuberculosis of infancy, Bitonal cough in, 39
Bronchitis complicating pulmonary tuberculosis, 64
Bronchomoniliasis, 76
Brown, P. K., and Eloesser, L. Thoracoplastic lung compression, 85
Buc, E. Tubercle bacillus only relatively aerobic, 53
Bufoni, M. Choice of climate for heliotherapy of surgical tuberculosis, 5
Bull, P. Disappearance of tuberculous peritonitis after use of radium, 66
Bull, P. Extrapleural thoracoplasty in pulmonary tuberculosis, 10
Burrell, L. S. T. Appraisal of artificial pneumothorax treatment, 81
——, ——. ——. ——., and Perkins, J. J. Artificial pneumothorax in nontuberculous lung conditions, 19

Calcification of pulmonary lymph nodes, Extensive, 43
Calcium and tuberculosis, 106
—— chloride in treatment of pleurisy with effusion, 90
——, Colloid of, treatment of tuberculosis, 90
—— therapy in tuberculosis, 89
—— —— of pulmonary tuberculosis, 23
Calmette, A. Status of chemotherapy in tuberculosis, 20
Cameron, H. C., and Osman, A. A. Empyema in first two years of life, 37
Campbell, J. A., and Hilland, L. Composition of gases in artificial pneumothorax, 82
Camphor, Treatment of tuberculosis with, 22
Capacity, Vital, as influenced by age and obesity, 45
——, ——, in hyperthyroidism and influence of posture, 56
——, ——, of Chinese, 114
Capillary system, Tuberculosis and, 44
Carbon monoxide as predisposing cause of pulmonary tuberculosis, 106
Cardiac pneumofibrosis, 75
Cardiopulmonary circulatory disturbance, Pulmonic area of heart as index of, 44
Cardiovascular complications of kyphoscoliosis, 80
Carlson, G. W., and Marshall, V. F. Urogenital tuberculosis in tabetic patient, 71
Caseosan in chronic bone disease, 96
Caseous lymph node, Sudden death of child from, 39
Catarrh, pulmonary apical, Tuberculous and nontuberculous, 59
Cats, tuberculosis of, Experimental, 46
Cattle tuberculosis, Diagnosis of, 110

Causation of pulmonary hemorrhages, 60
Causes of decline in tuberculosis mortality, 99
—— —— healing in artificial pneumothorax, 83
—— —— surgical tuberculosis in children, 109
Cavities in pulmonary tuberculosis, Prognosis of, 30
Cavity of lung, Operative drainage of tuberculous, 11
Cells, Wandering, and tubercle formation, 112
Cerebral cortex, Tuberculosis of, and atypical course of corresponding meningitis, 1
Cernaianu, C. Experimental tuberculosis of cats, 46
Chabanier, Potez and Laignel-Lavistine. Artificial pneumothorax during insulin treatment, 83
Chaboure, Pissavy and Breger. Amoebic abscess of lung, 76
Chance, B. Uveitis and tuberculosis, 64
Charlottenburg in 1921, school children in, Pulmonary tuberculosis in, 38
Chaoul, H., and Lange, K. X-ray treatment of Hodgkin's disease, 77
Chauvin, E. Treatment of tuberculosis of breast, 13
Chemotherapy in tuberculosis, Status of, 20
——, Intrapleural, in pulmonary tuberculosis, 89
—— for tuberculosis, Review of, for 1921, 21
—— of tuberculosis with sacurolin, 23
Chest puncture, Accidents of, 14
——, Unilateral immobilization of, in pulmonary tuberculosis, 13
Child, Artificial pneumothorax for nontuberculous lung abscess in, 84
——, Sudden death of, from caseous lymph node, 39
Childhood, epituberculous infiltration of lungs in, Tuberculous nature of, 38
——, scoliosis in, Postpleuritic, 79
—— tuberculosis, 37
—— ——, Sedimentation velocity of erythrocytes in, 42
——, tuberculous infection in, Frequency of, 37, 38
Childhood, tuberculous meningitis in, Vernal peak of, 74
Children, Chronic tuberculous splenopneumonia in, 40
——, Combating tuberculosis in, 33
——, Examination of blood of, for tubercle bacilli, 41
——, Hemoclinic state in prognosis of tuberculosis in, 42
——, Nontuberculous adenitis of, 37
——, normal, Lung findings in, 36
——, older, Tracheobronchial adenopathy of, 39
——, Pirquet reactions in, Comparison of different kinds of tuberculin in, 40
——, school, in Charlottenburg in 1921, Pulmonary tuberculosis in, 38
——, surgical tuberculosis in, Causes of, 109
——, tuberculous adenopathy in, Diagnosis of, 38
——, ——, Hilum lymph node enlargement in, 109
——, Wildbolz auto-urine reaction in, 41
—— with hereditary syphilis and tuberculosis, Physical development of, 110
——, X-ray together with heliotherapy in tuberculosis of, 43
Chinese, Vital capacity of, 114
Choice of climate for heliotherapy of surgical tuberculosis, 5
Chronic articular rheumatism, Iodine treatment in, 80
—— bone disease, Caseosan in, 96
—— pseudotuberculous laryngitis caused by new species of yeast, 65
—— tuberculous splenopneumonia in children, 40
Churchman, J. W. Bacteriostasis by dye mixtures, 48
——, ——. ——. Mechanism of bacteriostasis, 48
Circulatory disturbance, cardiopulmonary, Pulmonic area of heart as index of, 44
—— system in tuberculosis, 65
Claquè, Sartory, A., and Petgès. Chronic pseudotuberculous laryngitis caused by new species of yeast, 65
Clark, F. T. Pulmonary abscess following tonsillectomy, 75
Classification of pulmonary tuberculosis according to bacilli in sputum, 100

Climate for heliotherapy of surgical tuberculosis, Choice of, 5
Climates, mountain, Physiological effects of, 4
Clinical course of pulmonary tuberculosis, Relation of affected side to, 58
—— demarcation of pulmonary tuberculosis, 58
—— prognosis, Granular forms of tubercle bacilli and, 99
—— types of tuberculosis in infancy, 107
Coca, A. F., and Cooke, R. A. Phenomena of hypersensitiveness, 49
Coffen, T. H. Tuberculosis of endocrine glands, 2

Cole, W. H. Causes of surgical tuberculosis in children, 109
Colloid of calcium treatment of tuberculosis, 90
Combating tuberculosis in children, 33
Comparison of different kinds of tuberculin in Pirquet reactions in children, 40
—— —— results of home and sanatorium treatment, 7
Complement fixation in leprosy, 80
—— —— —— tuberculosis, 120
Complications of kyphoscoliosis, Cardiovascular, 80
Composition of gases in artificial pneumothorax, 82
Compression, lung, Thoracoplastic, 85
Conjunctival, Oral and, routes in tuberculous infection, 35
Conklin, R. L. Tuberculosis in horse, 111
Control of tuberculosis, Medical, 102
Converting fats to lipoids, Relative activity of lung tissue in, 46
Cooke, R. A., and Coca, A. F. Phenomena of hypersensitiveness, 49
Copper treatment of tuberculosis, 22
Cordes, F. C., and Franklin, W. S. Involvement of eye by lupus vulgaris, 64
Cordier, V. Prognostic value of basal metabolism, 45
Corica, A. X-ray together with heliotherapy in tuberculosis of children, 43
Cortex, cerebral, Tuberculosis of, and atypical course of corresponding meningitis, 1
Costodiaphragmatic adhesions, Influence of, on respiratory function, 113
Cottenot and Sergent. Iodipin in X-ray diagnosis of pulmonary disease, 60
Cough, Bitonal, in bronchial node tuberculosis of infancy, 39
de Coulin, A., Borrel, A., and Boez, L. Auto-activation of growth of tubercle bacilli, 53
Courmont, P., and Dumas, A. Tuberculosis serum reactions during and after typhoid fever, 29
Course, clinical, of pulmonary tuberculosis, Relation of affected side to, 58
Cox, G. L. Comparison of results of home and sanatorium treatment, 7
Crawford, A. B. Tuberculin hypersensitiveness from dead tubercle bacilli, 118
Criteria of activity of pulmonary tuberculosis, 56
Cummins, S. L. Factors in female phthisis death rate, 101
——, ——. ——. Work of Welsh National Memorial Association, 31

Dahlstedt, H. Annular shadows in pulmonary tuberculosis, 43
Dann, D. S., and Holmes, G. W. Cardiac pneumofibrosis, 75
Darger. Inadequacy of Ambard's constant as evidence of kidney involvement in tuberculosis, 71
Dauterabande, L., and Davies, H. W. Alkali reserve in pulmonary tuberculosis, 45
Davies, H. M. Surgical treatment of pulmonary tuberculosis, 7
Davies, H. W., and Dauterabande, L. Alkali reserve in pulmonary tuberculosis, 45
Dead tubercle bacilli, Hypersensitiveness produced by, 50
—— —— ——, Tuberculin hypersensitiveness from, 118.
Death following thoracentesis, Sudden, 14
—— rate, female phthisis, Factors in, 101
——, Sudden, of child from caseous lymph node, 39

Debré, R., and Bernard, L. Tuberculous infection of infants and its prophylaxis, 107
Decline in tuberculosis mortality, Causes of, 99
Defatted bacilli, Fornet's, in treatment of surgical tuberculosis, 94
—— —— treatment of tuberculosis, 93
Defatting of acid-fast bacilli in vivo, 53
Dehoff, Elizabeth. Sedimentation velocity of erythrocytes in childhood tuberculosis, 42
Deist, H. Difficulties in diagnosis of lung tumors, 78
De la Camp. Prognosis of cavities in pulmonary tuberculosis, 30
Demarcation of pulmonary tuberculosis, Clinical, 58
Detecting infectious localities, Unfitness of guinea pig for, 46
Dévé, F. Hydatid pneumothorax, 76
Development, Physical, in children with hereditary syphilis and tuberculosis, 110
Diagnosis, early, of pulmonary tuberculosis, Value of symptoms in, 56
—— of active tuberculosis, Specific serological, 63
—— —— cattle tuberculosis, 110
—— —— lung tumors, Difficulties in, 78
—— —— pulmonary tuberculosis, X-ray, 120
—— —— renal tuberculosis, Early, 70
—— —— surgical tuberculosis, Tuberculin, 61
—— —— tuberculosis, New serum reaction for, 63
—— —— ——, Serological, 63
—— —— ——, Supraclavicular depressions in, 57
—— —— tuberculous adenopathy in children, 38
—— —— —— meningitis by skin test with spinal fluid, 73
——, Tuberculin in, 60
——, X-ray, of pulmonary disease, Iodipin in, 60
Diagnostic and prognostic value of tuberculin reaction, 60
—— value of Pandy reaction in tuberculous meningitis, 110
Diaphragm, Motor innervation of, 113
Diaphragmatic pleurisy, 59
Diazo and urochromogen reactions, Prognostic value of, in pulmonary tuberculosis, 99
—— reaction, Ehrlich, New light on, 63
Dietrich, W., and Klopstock, F. Tuberculin hypersensitiveness, 50
Difficulties in diagnosis of lung tumors, 78
Dilatation of pulmonic area of heart, Significance of, 59
Dinguizli. Red rose-honey compound of Avicenna, 22
Direct sunlight in tuberculous peritonitis, 66
Disappearance of tuberculous peritonitis after use of radium, 66
Disease, pulmonary, X-ray diagnosis of, Iodipin in, 60
Dispensary, tuberculosis, Relation between practising physician and, 33
Doche, J. Helio-marine treatment of joint tuberculosis of adults, 6
Dogs, lymph flow in, Effect of tuberculin on, 119
Dorn, E. Portable artificial pneumothorax apparatus, 84
Drainage of tuberculous cavity of lung, Operative, 11
Dreyer, G. Defatted bacilli treatment of tuberculosis, 93
